

# Earth and Life Science BSc International Biology and Health Course

Double degree between Paris-Est Créteil University (France)  
and Bonn-Rhein-Sieg University of Applied Sciences (Germany)

UPEC (France) ↔ Bonn-Rhein-Sieg (Germany)

## About

This high-level course, in both French and English, presents theoretical and applied health knowledge thanks to the complementary between those two universities.

Students are delivered two BSc degrees in French and in German at the end of the three-year course (180 ECTS\*):

- > 1<sup>st</sup> and 2<sup>nd</sup> years at UPEC University with classes in English,
- > 3<sup>rd</sup> year at the University of Bonn-Rhein-Sieg including an internship in either Germany or France.

## Careers

Continue studying in France or abroad to become:

- Head of product engineer
- Project manager
- Design engineer
- Director of studies in R&D
- Clinical research engineer
- Engineer in animal experimentation
- Research professor or researcher

\* ECTS (European Credit Transfer System) credits  
A 3-year Bachelors programme is 180 ECTS-credits. One ECTS credit point equals to about 20 working hours:  
10 in class and 10 at home.

## Students profiles

- High-school graduates with very good grades in biology, chemistry or chemistry-biology, and with excellent language skills.
- Students selected for the biology and health course from APB (French portal: <https://admission-postbac.fr>).

## Admission

Students are selected on academic performance and motivation, language proficiency test, and interview with the head of the program of their home university.
